

# Have your say on the new Galway City Biodiversity Action Plan

Your views are sought on the issues that you think should be addressed through the new Galway City Biodiversity Action Plan. This five year plan is being developed with extensive stakeholder and public consultation in order to ensure the widest possible involvement in the Biodiversity Plan process.

**The Galway City Biodiversity Action Plan will provide a framework for the conservation and management of our natural heritage at a local level.**

**Biodiversity is another word for nature, natural heritage, wildlife or the natural world, and reflects the enormous variety of living things on earth.**

More information on the Galway City Biodiversity Action Plan and the Public Consultation process is available on: [www.galwaybiodiversity.com](http://www.galwaybiodiversity.com).

*Your contact details are not essential.*

In which aspects of the biodiversity or natural heritage of Galway City are you personally or your organisation most interested, and why?

What is your vision for the biodiversity of Galway City?

Are you currently involved in any practical efforts to protect and enhance the natural heritage of Galway City (e.g. collection of information, education, publication, and enhancement)? If so, please tell us about your project(s).

What species and/ or habitats do you feel are important in Galway City and what in your opinion are their conservation priorities?

What do you think are the most important **issues** concerning biodiversity in Galway City?

What do you think are the main **threats** to Galway City's biodiversity?

What are the most important and urgent **actions** that need to be taken in the next five years, to conserve and enhance the biodiversity of Galway City? Why do you think that this is the case?

Do you have any other issues you would like to raise, or points which you or your organisation feel are important for the new Galway City Biodiversity Plan?
